SITES OF DELEGATION TOUR

Date: 10.10.2012, Greifswald

TZV Technologiezentrum Greifswald

Mr. Techen

Mecklenburg-Vorpommern

Germany

The Technologiezentrum Fördergesellschaft mbH Vorpommern (TZV) supports companies with their settlement and paves the way for ones self-employment. They provide not only a modern infrastructure with their offices, laboratories, conference- and seminar rooms but also competent advice and support for business start-ups as well as for those that are already established. TZV supports firms from the first planning stage over to the product launch and establishment in the market.

Date: 10.10.2012, Greifswald

Hygiene Nord GmbH

Dipl.Biol. Torsten Koburger
Managing Director (CEO, CSO, CFO)

Hygiene Nord GmbH is a reliable partner for institutions of health care and industry in problems related to hygiene security tests and to the evaluation of medical products. The young team, specialised in different fields, is also able to solve unusual problems. Furthermore, they are able to rely on scientific advisory boards from numerous clinical specialist disciplines. Hygiene Nord is an independent, microbiology testing laboratory and a consulting firm in the hygiene area. Among other things their activity emphasises: environmental and food hygiene tests, hospital hygiene advice and studies, investigations and evaluation of antimicrobial agents, preparation of hygiene plans, acquisition of infection data, outbreak management and preparation of experts' reports.

BioCon Valley GmbH & Biotechnikum

Dr. Heinrich Cuypers
Senior Project Manager International

Birgit Pscheidl
Project Manager LifeSciences, Eco4Life Contact Point Manager

Short description of the institution

BioCon Valley® as the central contact for life science, biotechnology and biosciences in North Eastern Germany networks the competencies of business, universities, academies, and research institutions within the scope of medicine, medical engineering and pharmacy. BioCon Valley® operates technology centers specific for life sciences ("BioIncubator") as start-ups for young companies and initiates and supervises projects, contributing to the economic and scientific profile of Mecklenburg-Vorpommern.
